

Subject Activity Day

REFLECTIONS

Tuen Ling Yuk, Diana 1C

On April 15, our school held activities for Form 1 in Stanley. On that day firstly we had to interview foreigners and then we could do other activities such as shell collecting, report writing, postcard buying and taking photos.

Of all the activities, interviewing the foreigners was the most interesting. The first Westerner we interviewed was a woman and her small child. We told her our purpose and she was very happy to talk with us. We were also very happy as we learnt a lot from this friendly woman.

From these activities I realize the importance of English in our world. English is the language we can use to communicate with people from all over the world.

English has become a bridge between peoples and a gateway to much knowledge. If we can't speak English, in the future we may not be able to get what we want.

From this day I also realize that as a member of my class, I should get on well with my classmates and be ready to help others. If I help others and respect them, they will help me and respect me.

VISIT TO STANLEY

Cheng Wing Sum, Kathleen 1C

15th April was our School Activity Day. All Form 1 students, English teachers and some Form 6 students went to Stanley. After an hour in the school bus, we reached Stanley. Firstly we did our shopping survey. When I talked to foreigners I didn't feel frightened. I don't know why. It was cloudy and rainy on that day, so there were not many people out shopping. It was not easy to do the shopping survey.

After the shopping survey my group went to the beach and found some shells. There were so many beautiful shells- I loved it! After our lunch we went to the Hong Kong Sea School, Stanley Market, Murray House and Stanley Plaza to take photos and finish our work.

I really enjoyed the Shopping Survey, though my English is not good. It was the first time I had spoken to foreigners, except for Ms Allinson, but I didn't feel nervous. After this activity I would like to speak and learn more English.

SOCIAL STUDIES ACTIVITY DAY

Chong Miu Sheung, Michelle 2A

On April 15, I went to Fu Mun in the Mainland with my classmates and teachers. In the morning we met at Kowloon Tong KCR station. We went to Lo Wu by KCR. We left Hong Kong and went into Zianzhou and then travelled to Fu Mun by bus.

When we reached Fu Mun, we then visited the Sea Museum and saw many rare and valuable things. For example, we saw old photos, pictures, banners, ammunition and so on. Next we went to the Site of Wei Yuan Batteries to see a place where war occurred. There were six batteries, which were used to keep China safe many years ago. I took so many photos there because I thought the batteries and the Fu Mun Bridge were truly spectacular.

After lunch, we went to the Opium War Museum. I had been there seven years ago. I learnt how to destroy opium. Originally they made big, deep holes and then threw the opium into the holes and used chemicals and water to drench it. They were very clever because they didn't use any high technology.

During the day, I learnt a lot of Chinese History. Although I was very tired, I felt so happy because I learnt so much on this trip and my favourite teacher, Mr Wong, organized this trip.
